# The Biology of Belief and The Science of Changing Your Mind

with

*Bruce H Lipton PhD*

&

*Dr Joe Dispenza*

**SCIENCE THAT MATTERS TO YOU ...  
where the Body meets the Mind**

**Bruce H. Lipton, PhD** ... Bestselling author of "The Biology of Belief", is a cellular biologist and former Associate Professor at the University of Wisconsin's School of Medicine.

His pioneering research on cloned stem cells at Wisconsin presaged the revolutionary field of epigenetics, the new science of how environment and perception control genes. Subsequently, as a Fellow in Pathology at Stanford University's School of Medicine, his published research on the human immune system yielded insight into the biochemical pathways that bridge the mind-body duality.

**Joe Dispenza, DC** ... featured in the award winning film, "What the BLEEP Do We Know!?", and the author of *Evolve Your Brain: The Science of Changing Your Mind*, now also on DVD. He has a BS degree with an emphasis in Neuroscience from Evergreen State College, earned his Doctor of Chiropractic from Life University and studied biochemistry at Rutgers University

Dr. Dispenza explains the bridge between human potential and the latest scientific theories of neuroplasticity. He illustrates ways in which the human brain can be used to affect reality through the mastery of thought. Thinking in new ways, as well as changing beliefs, can literally rewire one's brain, and there is physical evidence to support this.

**BRUCE'S presentation will explore:**

- The formerly hidden connections between biology, psychology and spirituality
- How environment, including your thoughts and emotions, controls the character of every cell
- How to become the master of your fate, rather than the 'victim' of your programs
- The way to make success a self-fulfilling prophecy, rather than a day-to-day struggle

**JOE'S presentation will explore:**

- What is mind and what is its relationship to your life
- How to evolve your brain by changing your mind
- How to break unwanted emotional patterns
- How to create new patterns and habits in the brain and body

**Early Bird Prices ... available until 14th August**

**Standard prices**  
\$195 - day events  
\$70 - evenings

**SYDNEY: Sunday 30th August 2009 Day event: \$165**

**BRISBANE: Wednesday 2nd & Thursday 3rd September 2009 Evening events: \$45 each evening**

**MELBOURNE: Sunday 6th September 2009 Day event: \$165**
